

# TESTING SOLUTIONS FOR THE POWER, OIL, GAS, RAIL INFRASTRUCTURE, AND MANY OTHER INDUSTRIES

**FrazerNash**  
Non Destructive Testing Limited

Leaders in Non Destructive Testing  
throughout the UK & overseas

Since 1986 Frazer Nash NDT Ltd has provided high quality Non destructive services to all industries. With a proven track record we continue as one of the countries leading independent NDT companies.

Using the most advanced technologies and highly skilled technicians we ensure customer satisfaction. Frazer Nash provides many specialized inspection techniques either on site or in our laboratory; promoting periodic and ongoing inspection, prolonging the reliability, efficiency and safe working life of plant, rail, engineered components and machinery.

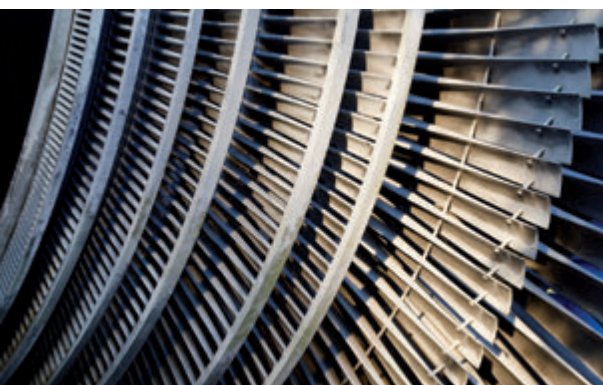

All Frazer Nash NDT Technicians are qualified to a minimum of PCN/ASNT level II with Steve Osman having Level III qualifications in all disciplines.

**Inspection Services Provided:**

- Ultrasonic Inspection (UT)
- Phased Array (PA)
- Penetrant Testing (PT)
- Magnetic Particle Inspection (MT)
- Radiography (On site or our laboratory - X-Ray, Gamma & SafeRad)
- Eddy Current (ACFM)
- Thermography (T)
- Visual Testing (VT)
- Material Analysis (PMI using Niton)
- Weld Procedure Qualification
- Periodic Boiler Inspection
- Microprof
- ASNT Level 1 & 2 Training in MT, PT, UT & RT

**FrazerNash**  
Non Destructive Testing Limited

Frazer Nash NDT Limited is one of the countries' leading independent Non Destructive Testing Companies. For over 30 years we have been providing NDT services to the Power, Oil & Gas, Construction, Rail and other industries throughout the UK and overseas. Our new depot in Manchester has enhanced our location strategy to satisfy our large local clients in Greater Manchester and the rest of the UK.

# FrazerNash

Non Destructive Testing Limited

Frazer Nash NDT Limited offers many specialized inspection techniques either on site or in our laboratory. We have Level III capability and can provide Level III services in both PCN and ASNT in Ultrasonic Inspection, Radiography, Magnetic Particle Inspection and Liquid Penetrant Inspection.

Frazer Nash NDT Limited can provide ASNT training either at our clients' premises or at our training facility for Magnetic Particle Inspection, Liquid Penetrant Inspection, Ultrasonic Inspection Radiography.

Using the latest equipment and with years of experience and knowledge we have become first choice suppliers for many industry leaders.

All of our technicians are qualified to a minimum of Level II PCN and ASNT Level II.

#### Recent on site contracts include:
